

ISLAMORADA

The gateway to the wild Florida Bay backcountry, the Everglades, the only living coral reef in the continental United States and the cobalt blue waters of the Gulf Stream.

Rated in the top ten sportfishing areas worldwide, Islamorada offers anglers an astonishing number of gamefish species to pursue once they leave the dock.

From snook, redfish, black drum, jewfish, sharks and trout in the mangrove creeks and islands of the Everglades to the tarpon, bonefish and permit on the "downtown" flats of Islamorada, our shallow water fishing opportunities abound. On the ocean side, our anglers fish the edge of the coral reefs for several species of snapper, grouper, barracuda and kingfish, and an occasional cobia. When the weather is right, we head to the Gulf Stream in pursuit of dolphin, wahoo and sailfish and tripletail.

Florida Keys Anglers provides fishermen of every level of expertise the opportunity to choose from several charters and customize them for their needs. Our clients range from parents who would like to teach their children to fish in a family-friendly environment to world-class fly fishermen. Our courteous and professional captains are here to help every customer become a more knowledgeable angler regardless of previous experience and to provide vivid, pleasant memories that will last a lifetime.
